FEATURES: 20 mm, Frost-resistant, R11

What matters when choosing

Good decisions combine visual effect, size, finish and use. The key features make it easier to narrow down the right execution.

01 Clarify the use first

Interior, exterior, wall, floor, stairs or wet areas change the right surface. Outdoors, build-up, slope, frost resistance and slip rating belong together.

02 Choose the finish deliberately

Matt feels calmer, polished more elegant, satin softer. Relief, Structech or Slipstop can noticeably change touch and care.

03 Consider size and laying

Large formats need clean planning, suitable substrates and handling. Mosaics, steps and cuts are matched to use and edge detail.

04 Packing and handling

XXL slabs and Maxitech can approach 50 kg per slab. Access, storage, transport route and cutting should be clarified early.

05 Care and samples

Samples help with colour, gloss and touch. Natural stone needs matching care; acid sensitivity, impregnation and finish are discussed early.

Remember Always check size, weight, finish and use together. With natural stone, the actual slab matters too.

Personal advice and individual selection

CERAFLIESEN

Advice, samples and planning

We support the selection from the first idea to the right surface. Colors, sizes and feel can be matched personally with samples.
