**FEATURES:** Frost-resistant, R11, 7 faces

# What matters when choosing

Good decisions combine visual effect, size, finish and use. The key features make it easier to narrow down the right execution.

## 01 Clarify the use first

Interior, exterior, wall, floor, stairs or wet areas change the right surface. Outdoors, build-up, slope, frost resistance and slip rating belong together.

## 02 Choose the finish deliberately

Matt feels calmer, polished more elegant, satin softer. Relief, Structech or Slipstop can noticeably change touch and care.

## 03 Consider size and laying

Large formats need clean planning, suitable substrates and handling. Mosaics, steps and cuts are matched to use and edge detail.

## 04 Packing and handling

XXL slabs and Maxitech can approach 50 kg per slab. Access, storage, transport route and cutting should be clarified early.

## 05 Care and samples

Samples help with colour, gloss and touch. Natural stone needs matching care; acid sensitivity, impregnation and finish are discussed early.

**Remember** Always check size, weight, finish and use together. With natural stone, the actual slab matters too.

## Personal advice and individual selection

**CERAFLIESEN**

## **Advice, samples and planning**

We support the selection from the first idea to the right surface. Colors, sizes and feel can be matched personally with samples.
