Inspiration for rooms with character

Surfaces, colours and sizes that turn ideas into a real room feeling.

Start with the stone effect, then colour, slab image and size. This creates a selection that fits the room, edge detail and custom work.

Choose natural stone calmly

With natural stone, the actual slab matters. Colour, veining, thickness, edge, light and cut are reviewed together before approval.

Slab image

Every slab is unique. Photos, samples and approval make the room effect easier to judge.

Size and edge

Stairs, sills, vanities and accents are prepared from a sketch, photo or dimensions.

Feel and care

Marble, granite, onyx and quartzite behave differently. Cleaning and impregnation are matched to the material.

Approval

Before ordering, slab, direction, thickness, cutting reserve and delivery route are clarified personally.

A photo, approximate size and desired stone effect are enough for the first step.
